

CHALICES & CIBORIA

Our silversmiths combine elegant design and pure craftsmanship to create chalices of renowned quality that will last a lifetime and that are worthy of the celebration of the Liturgy. When selecting an artistically built chalice you are contributing to the development and maintenance of the fine art of the liturgical silversmith, a profession intimately linked to the origins of the Christian religion which has enriched the western civilization since immemorial times. In this catalogue, you will find the broadest selection of chalices available in the industry that will enable you to make your important decision. Under special request, many can be modified with countless options to make sure we meet your specific needs. We also specialize in creating bespoke chalices of the highest quality for our customers from scratch.

The term "All Sterling Silver" refers to chalices and ciboria entirely made in sterling silver with only the internal connecting hardware made in non-precious metals.

All prices in this catalogue for items with cup in Sterling Silver or entirely made in Sterling Silver are only approximate. Please, ask for an updated price before ordering any piece containing Sterling Silver.

MAESTRO COLLECTION

The sacred vessels presented in this collection are a faithful testimony of the sheer artistic quality developed by our master silversmiths throughout their life. Most are the result of our designers' creativity and some are replicas of Christianity's historic chalices. In all of them, only the purest craftsmen's techniques transmitted from the Medieval Ages such as embossing, hand engraving or fire enamelling have been applied resulting in real works of art.

ST. REMY

Widely known as the "St. Remy", the chalice of St. Remigius is probably the most beautiful and treasured symbol of a Christian sacred vessel. Its sheer beauty, magnificent craftsmanship and interesting history make it a legend in its own right.

St. Remigius, Apostle of the Franks and Archbishop of Reims, France, during the VI Century was a very influential man who converted the Franks to Christianity. The Franks had been mainly warriors until then and had robbed or destroyed many of the sacred vessels of the Churches of the era. It is said that, after the Franks converted to Christianity, the chalice of St. Remigius was cut from the gold of the celebrated vase of the Church of Soissons, previously broken by a soldier of Clovis, King of the Franks, as a gesture of regret. The St. Remy chalice has been preciously kept since then in the treasury of the Cathedral of Reims, being even used by the Kings of France to communicate under the species of wine at the end of the Coronation ceremonies.

Our version of this mighty chalice is a living proof of the degree of expertise, perfection and attention to detail transmitted through generations of our own craftsmen. Every part, every bit of it is made by hand with the purest techniques used by the great medieval silversmiths mixed with the most modern plating methods to assure that every one of them is a worthy tribute to the original chalice and a piece of art that will further its value with the passing of time. Matching ciborium, open ciborium, intinction set, cruets set and monstrance available.

2270

"The St. Remy" Chalice & Paten

This masterpiece is an accurate replica of the original twelfth century St. Remy Chalice, housed in the Cathedral of Reims (France). It is completely hand made in 925 sterling silver gold plate. Attractive hand chased outer cup and base with open arch design exposing the brightly polished inner cup and base. Set with 32 genuine stones (Amethysts, Lapis Lazulis, Green Venturines and Garnets) as well as adorned with cloisonné fire enamel, the St. Remy chalice is a superb blend of beauty, quality and dignity of design. **14.195 €**

TASSILO

The origin of this famous chalice can be traced back to the Duke Tassilo III of Bavaria, Germany, VIII Century. It is one of the most important treasures of this era even though it was not known until the XI or XII Century. It is the symbol of the wedding between the Duke Tassilo III, from the Agilolfing dynasty that governed Bavaria and Liutpiric, the daughter of the Lombardian King Desiderius, and was presented by them in 777 to the Monastery of Kremsmünster (Germany) where it is still preserved today.

The only modification to this original chalice is the fact that the wording on the base from the original Tassilo chalice (+ TASSILO DVX FORTIS + LIUTPIRC VIRGA REGALIS +) has been changed to the Latin text PER IPSUM CUM IPSO IN IPSO + meaning FOR HIM WITH HIM IN HIM +, of important meaning in liturgy, thus making our version more appropriate for its use in a liturgical catholic service. Our chalice is also slightly smaller in size, making it easier to use during the services than the original of considerably larger dimensions. The design and style of the figures present on our chalice are sensibly more refined and symmetrical than those of the original, of a more primitive design. Matching ciborium, open ciborium, cruets set and monstrance available.

THE GOTHIC

This beautiful chalice was commissioned under special request by The Vatican as a present to His Holiness, John Paul II to commemorate his 50th anniversary in the priesthood. The elegant, octagonal gothic design created by our artistic department was masterfully executed by our silversmiths using sterling silver throughout. The result was impeccable and its generous proportions made it look impressive on the main Altar during the commemorative Mass in St. Peter's Basilica.

The many requests received by our clients for this chalice moved us to develop a matching ciborium, open ciborium and monstrance, thus completing a stunning, full Altar set.

2392

THE ARDAGH

The origin of this chalice goes back to the second phase of the Christian Era, during the beginning of the VIII century. It was discovered in the late XIX Century in Ireland by a small boy that was digging potatoes in Reerasta Rath, near the village of Ardagh. The chalice seemed a treasure that most likely belonged to a rich and well established Irish monastery. Its unique low design with two handles, hand forged construction in solid silver, deeply engraved celtic ornamentation and fire enamelled cabouchons make this chalice the most important and richest of the first Irish Christian objects and clearly one of the finest metal pieces from the VIII Century that has been discovered so far.

Our version of the Ardagh chalice is taller and resembles more the shape of a chalice than the original. Like its predecessor, it features a deep celtic engraved design on cup, base and node as well as engraved and fire enamelled cabouchons. Ciborium and monstrance available.

2728

Chalice & 7"ø Bowl paten

ROMANESQUE COLLECTION

The Romanesque art represents the spiritual unison of Europe and it is when the concept of Christendom arises. Western culture flourishes and the primacy of European culture will impose from then on its own dynamics of development, eclipsing both Byzantine and Islamic cultures. New constructive techniques arise and there is a fusion between expression and beauty in the figurative arts.

All of the Romanesque pieces in this collection have been developed by our silversmiths to reflect the beauty and character of this classic style, blending elegance, balance and craftsmanship in one.

GOTHIC COLLECTION

The Gothic period represents the zenith of the Western cultural process. During the 12th century the flourishing of the cities develops this style that faithfully represents the ideal of a free citizen. The artist acquires full independence. More slender and stylised forms give a more spiritual and closer vision of God.

Many of the chalices in this collection have been newly designed specifically for this catalogue, reassuring once again our tribute to this great classic style.

2445

Chalice & 6 1/4" scale paten with ring

Rich gothic design and intricate octagonal construction come together on this work of art. Deep, elaborate artisanal jobs on all the elements of this chalice combine with expert craftsmanship, resulting in a chalice worthy of the purest tradition.

Height: 9 1/4" Cup Ø: 4 1/8" Capacity: 14 oz.

Inner Cup Sterling, g/p 4.655 €

All sterling silver, g/p 6.195 €

2450

Chalice & 6 1/4" scale paten with ring

This chalice blends deep relief embossing and pure gothic design, thus becoming a legitimate descendant of the great chalices of yesteryear. The flat and wide base, tall stems, embossed node and outer cup make this magnificent piece aesthetically pleasing from any angle.

Height: 9 3/8" Cup Ø: 4 1/16" Capacity: 14 oz.

Inner Cup Sterling, g/l 3.795 €

All sterling silver, g/l 4.995 €

**2465*****Chalice & 6 1/4" scale paten with ring***

This masterpiece features the Stations of the Cross on its cup and base. The heptagonal construction on all its elements to represent each of the fourteen Stations is a faithful example of our silversmiths' ability. Each panel is finished in slightly oxidized silver plate contrasting with the gold plated embossed ornamentation on cup, base and the spectacular seven-pointed node.

Height: 9 5/8" Cup Ø: 4 1/16" Capacity: 14 oz.

Inner Cup Sterling, g/p 4.550 €

All sterling silver, g/p 5.995 €

**2440*****Chalice & 6 1/4" scale paten with ring***

Sublime gothic design, lightly embossed on cup and base with finely engraved stem. The base features beautiful engraved medallions showing the Four Evangelists, The Crucifixion and the Blessed Mother finished in silver plate with contrasting gold plated backgrounds. The delicate cord decoration around each medallion is matched on the node and stem.

The text on the cup reads:

"Calicem Salutaris Accipiam Et Nomen Domini Invocabo".

Height: 8 3/4" Cup Ø: 4 7/8" Capacity: 14 oz.

Inner Cup Sterling, g/p 3.815 €

All sterling silver, g/p 4.995 €

2970

Chalice & 6 1/4" scale paten with ring

The artistry of our craftsmen is reflected on this piece of the purest gothic design. Expert construction, chiselling, engraving and the best enamel work meet together on this chalice which well could be inside a museum. The base has six hand painted fire enamelled panels featuring the Four Evangelists, the Crucifixion and the Ascension, while the cup has a further three showing Christ, the Blessed Mother and St. Joseph. The node is hand engraved with the word "Agnus" and a PX on the front.

Height: 9" Cup Ø: 4 1/2" Capacity: 15 oz.

PLATERESQUE COLLECTION

Influenced by the Italian Renaissance movement and the Florentine artists that came to work for the Spanish Crown, the Plateresque style develops itself as a genuine independent Spanish style through the XV-XVI Centuries.

The pieces here illustrated are a worthy example of this pure Spanish style of clean lines and elegant presence.

BAROQUE COLLECTION

During the 17th century and the beginning of the 18th century, the baroque represents a moment in Western culture in which the affirmation of nationalities and the tension produced by the Reformation and Counter-Reformation coincide. An interest for the monumental, the surprising and the dazzling arises. It is also the art in which the movement and the theatrical tension are most successfully produced.

All the pieces in this collection offer you multiple possibilities to enrich your liturgy and complement your church interior in this beautiful style.

MONSTRANCES & OSTENSORIA

Our monstrances are delicately executed in sterling silver or high quality base metal, heavily gold or silver plated to achieve the best looking finish. The luna is always immaculately finished in 24 karat gold plate in order to expose with dignity the Host for the Adoration. Great selection of styles and sizes to meet your specific needs. Our monstrances are always built by hand, so different luna sizes and custom modifications are always available upon request.

7293
"Gothic Monstrance"

Rich cut-out Gothic filigree open work executed on this "one of a kind" magnificent monstrance. The finial cross is adorned with amethyst cabochons. TABERNACLES

Our tabernacles are built with the objective of magnifying the Altar and its surrounding space in which the tabernacle plays a key role: housing the ciborium which contains the Body of Christ. No expense is spared when building these works of art. The attention to detail on each one of them has no equal, resulting in a top quality piece that inspires devotion. The same degree of perfection is achieved on the inside, always immaculately finished in rich 24 karat gold plate. All our tabernacles can be modified to the customer's requests. Custom chiselling and embossing jobs to represent different scenes as well as custom fire enamel doors are always available upon request.

4112**"Baroque" Tabernacle***

Rich baroque ornamentation, featuring different scenes of the life of Christ and statuettes of the Four Evangelists. The doorframe is adorned with graceful cloisonné fire enamel filigree design. The interior is richly ornamented with a high-gloss 24 karat goldplate finish. Available in bronze, silverplated or 24 karat goldplated finish.

Measurements:

Height: 33 1/2"

Width: 23 5/8"

 21 3/8" high x 17" Deep x 19-3/4" Wide
 Silver Plated **61.325 €**
 Gold Plated **63.450 €**

The perfect piece for the perfect setting:

Our # 4129 tabernacle sits majestically on the main Altar of St. Paul Catholic Church in Reading, PA giving a touch of distinction to the excellent job achieved on its complete renovation. Its mirror-like finish and impressive proportions can be appreciated from the long distance. This is just an example of all we can offer you to distinguish your Parish, Church or Cathedral apart.

		Simple Brackets for rails for Procesional Carriage	1.150 €

5. General Information

• Materials used:

The most commonly used materials in our production are Brass, Bronze, Sterling Silver, Gold and 24 karat electrolytic Gold that is used for our goldplating processes. These are all certified materials and follow exhaustive controls before being manufactured in our workshops.

• Finishings:

- All our articles, no matter the finishing they show in this catalogue can be finished in any other way. The available finishings would be the following:

- 24 karat electrolytic goldplate
- 1000 Sterling Silver electrolytic plating
- Two tone finish, combining silverplating at 1000 Sterling Silver and 24 Karat goldplating.

• Enamels:

All enamels shown in our items are entirely handcrafted and can be carried out using two different systems:

- **Fire enamelling:** It is the main system of enamelling. This procedure dates back from the Middle Ages and consists on "crystal dust" of different colours being applied with water on top of the surface to be enamelled. After that the water content is dried up and it is baked at temperatures above 800 degrees. This will give the enamels all their beauty and colourfulness. The items in this catalogue made using this process are indicated with the legend "fire enamelled"

- **Epoxy or cold enamelling:** It is the commercial enamelling. It consists in the application of resins with different colours that will be later baked in the oven where they will reach final looks similar to those of the fire enamelled pieces.

• **Lacquering:**

The vast majority of our items, in their final finishing are treated with vitreous lacquer. This process prevents the metal pieces from tarnishing and guarantees the durability of the different finishings of silver and gold without needing to clean them at all. In order to lacquer the pieces first they must be thoroughly cleaned, they are immersed in several tubs with degreasing liquids, then the lacquer is applied by atomising it with spray guns inside of an isolated room with continuous water curtain. Once the piece is lacquered it is placed inside of an oven at 160° for 20 minutes that will vitrificate the lacquer. A considerably hard crystal-like film on the surface of the piece will result from this process. This film will protect the piece from minor erosion and oxidizing. Only some items finished entirely in 24 karat electrolytic goldplate, because of their design, are not protected with lacquer, given that this is a material that does not oxidize.

M

• **Articles to match:**

Many of the chalices shown in this catalogue have their ciborium or open ciborium to match, please feel free to contact our customer service department if you are interested in the matching pieces for a specific model for which the picture is not shown and we will provide pictures or designs of the existing matching articles.

Also, some of our chalices are part of a bigger set composed by other metalware items such as Monstrances, Ostensoria, Tabernacles, Missal stands, etc. In this case, you will see references in the item that will take you to the rest of the set in other sections of the catalogue.

• Engraving:

In our workshops we count with artisan engravers able to carry out all sorts of inscriptions or designs in any of the articles we manufacture. Send us your requests and we will provide the most professional engraving in the market.

• Care and Preservation:

As we have already mentioned, all of our items are made using noble materials with high quality finishings, in most cases with mirror polishing and protected with vitreous lacquer.

For their care and preservation, it is only necessary to treat them with the care and attention an artistic item requires and only remove dust and fingerprints produced by the normal use of the piece with a feather brush or clean, soft, 100% cotton cloth that must always be used following the sense of the polishing marks. In the event of a wine stain or any other that cannot be removed using the mentioned procedures, please use a lightly humid soft cotton cloth. Once removed, dry the piece with care using a dry cotton cloth.

NEVER APPLY METAL CLEANERS, SOLVENTS OR ANY OTHER ABRASIVE PRODUCT LIKE ALCOHOL, GASOLINE, ETC.

• Custom Articles:

Because of the artisanal structure of our company, one of the aspects that best describes us in the market is our sheer capacity for developing custom articles. We are prepared for carrying out these jobs and we have the necessary expertise to develop any kind of metalware piece you may need.

You only need to bring in your ideas or specifications and we will develop a sketch for you with the degree of quality you request, together with the budget and a firm delivery timeframe. The final result, if you decide to go ahead with the project will be a magnificent and unique work of art that will be part, in the centuries to come, of the last pieces of real handcrafted metalware made in the world

• Safety and Hygiene at work:

It is with great satisfaction that we can guarantee within our productive process, the SAFETY and HYGIENE at work. Even though our production is artisanal we are certified and updated with the most modern safety and hygiene control measures at our premises, going through the most rigorous yearly controls imposed by the Labour Regulations of the Spanish Administration.

• Cases:

For a higher protection and care of our chalices, monstrances and other items of our production, standard and custom cases are available. Said cases are available in a material that imitates black leather, with padded interior and lined with red velvet. Special cases made in other materials are available upon request, even with real leather on the outside.

STANDARD CASE FOR CHALICE & PATEN: 140 €

• Guarantee:

As a final consequence of all our productive processes and backed up by the self-assurance provided by our experience in the manufacturing of religious metalware for over 40 years, ALL OUR ARTICLES, are guaranteed for 5 YEARS against manufacturing defects.

In the event of a claim falling under this guarantee a written request must be addressed to our customer services department that will give you instructions on how to solve the issue.

• **Administration and control of the productive process:**

From the moment we receive an order for one of our items, an administrative and productive process, unique amongst the artisanal workshops, starts.

All orders are processed on a daily basis with detailed data on the customer, deadlines and all eventual aspects of the product such as reference numbers, finishings, etc.

Once the order is processed a production order is automatically generated by our computing systems with all the details regarding the productive process and with a barcode that will be read by a special software, custom made for this company, registering all production times and the different stages that the piece will go through until the completion of the article and the shipment to the final destination.

This guarantees that no aspect of the productive process is omitted and that all intermediate quality controls are carried out.

• **Packing:**

As final element of our productive process the packing system for our artisanal production is the best in the market both for road and air transportation.

Once carried out the final quality checks of our metalware, the items are carefully wrapped in their soft flannel bags (chalices and ciboria) or wrapped with silk paper. After that, they are protected in bubble wrap that prevent them from small hits and scratches during transportation. Finally, they are taken to the packing and shipping section where they are carefully placed in double thickness cardboard boxes and isolated from each other by bags of injected foam, where each article is entirely surrounded by said foam protection that once expanded provides an outstanding protection in order to make the items travel safely to their final destination.
